

Resume

Travis Estill
1072 Village Shore Dr.
Canyon Lake, TX 78133
(830) 221-0111
travis@travisce.com

Objective

To secure a position where I can leverage my web programming and server administration skills to build new solutions for customers and maintain existing systems.

Education

- Smithson Valley High School (Spring Branch, TX)
- Zend PHP Certification (<http://zend.com/zce.php?c=ZEND006475&r=222903005>)

Experience

- **Rackspace Hosting (rackspace.com)**

Linux Server Administrator (January 2010-Present)

Employed as a customer-facing administrator to assist and resolve issues via phone, ticket, and live chat. Started on the Cloud Sites platform as an entry-level technician and then moved into Cloud Servers as a Level 1 linux administrator. Staying current with knowledge of PHP and MySQL to help resolve advanced website issues.

- **San Antonio Computer Doctor (sacdr.com)**

Web Developer (July 2009-December 2009)

Contracted for this PC repair and web development company. Migrated 60 client websites to this company's IIS web server from another server running Apache. This required the debugging and testing of numerous PHP scripts. The PHP configuration on the new server was improved for security, and new PHP extensions were installed to work with these

scripts.

- **myARCworld.com**

Web Developer (November 2008-May 2009)

Worked full-time for this web development and credit card processing firm. Developed and maintained client websites and internal software solutions for the company. Worked on-site as the company's computer tech maintaining workstations and their in-house servers. As of December 2009, myARCworld is no longer in business.

- **CompanyApparelSafetyItems.com**

Web Developer (October 2008-Present)

Created a clean HTML/CSS layout for this site from a custom-designed template.

- **CreativeLink.com**

Web Developer (September 2008-October 2008)

Contracted for this advertisement agency. Developed a custom message board and implemented user interfaces for their clients' sites.

- **FirecatStudio.com**

Web Developer (June 2008-July 2008)

Contracted for this web design company.

- **ConsignmentPal.com**

Web Developer (May 2008-November 2008)

Helped this online consignment store directory with the launch of their new site. Transferred their files and databases to a new hosting company, customized their existing PHP programs to meet the company's needs and worked with them to generate money from advertisements.

- **StraughanPhoto.com**

Web Developer (March 2008)

Contracted for this web/photo design company.

- **EchoDS.com**

Web Developer (March 2008)

Contracted for this web design company.

- **SmallPlanetGuide.com**

Web Application Developer (August 2006-April 2007)

Developed a custom PHP/MySQL search engine for this online apartment locator. Search engine allows for a wide range of parameters such as price, apartment name, neighborhood, and others.

Skills

Extensive knowledge of (x)HTML, CSS, JavaScript, AJAX, PHP 4/5, MySQL, Apache, HTTP/REST, and W3C standards.

Experience with Linux and Windows/IIS servers.

Working knowledge of osCommerce, Joomla, Wordpress, Drupal, Authorize.net, jQuery, and mooTools.
